

## **ICAP LESSON: College Planning**

**Grade:** 9

**Materials:** Computer Lab

### **Day 1:**

- Have each student log in to their College in Colorado account.
- Direct each student to their Interest Inventory results. Use a career of choice to identify a related program of study and find two schools of interest that offer that program.
- Each student should complete the worksheet questions about each school of choice.
- If the school is still interesting, have students save the school to their portfolio.
